

Professor of the Unit of Biotechnology of Reproduction at the Farm Animal Clinic, School of Veterinary Medicine, Aristotle University of Thessaloniki (AUTH), specializing in the "Physiopathology and Biotechnology of Farm Animal Reproduction." He completed both his undergraduate studies and his doctoral dissertation at the School of Veterinary Medicine (AUTH). He underwent further training at the Faculty of Veterinary Medicine of the University of Murcia, Spain, specifically at the Porcine Reproduction and Surgery Clinic.

For a decade, he worked at the Thessaloniki Center of Veterinary Institutions under the Ministry of Rural Development and Food, as well as at the Veterinary Research Institute of the Hellenic Agricultural Organization (ELGO) - DIMITRA. Regarding his academic trajectory, he was promoted to the rank of Full Professor at the Farm Animal Clinic, School of Veterinary Medicine (AUTH), in July 2023.

He has published dozens of full-length research papers in reputable, peer-reviewed scientific journals with an impact factor, holding an h-index of 23 and an i10-index of 29 (as of June 2026). He serves as an academic editor for three international scientific journals and acts as a regular peer-reviewer for 42 veterinary science journals.

He has successfully supervised 4 PhD dissertations and is currently supervising one (1) additional doctoral candidate. Additionally, he has supervised one (1) Postdoctoral Fellowship and serves as a member of the Three-Member Advisory Committee for nine (9) PhD dissertations, six (6) of which have already been successfully defended. Furthermore, he has supervised the completion of three (3) Master's theses. He has an extensive teaching record in both undergraduate and postgraduate programs at other Greek universities (beyond AUTH) as well as at universities abroad.

Finally, he has co-authored two scientific books, delivered dozens of invited lectures at international scientific conferences and symposia, and received honorary distinctions accompanied by monetary awards in scientific competitions. He has also served as an instructor in scientific seminars and has acted as the principal investigator or a research team member in dozens of funded research projects.
