🎯 COACHING STYLE-PROFILE

As a coach I prefer the up-tempo way of playing, which involves a lot of transition. All kinds of pressing defenses, man-to-man or zone, are my favorites and most preferred ones. Spacing and “in-out” type (including pick and roll & coming off screens) offenses are also strongly established in my playbook. Finally, I firmly believe that the use of rotation during games keeps the pace of the team at a high level, while at the same time giving the younger players the opportunity to develop
