

Dr. Konstantinos V. Papageorgiou is Assistant Professor of Microbiology and Infectious Diseases at the School of Veterinary Medicine, Aristotle University of Thessaloniki, Greece. He obtained his DVM degree from the Aristotle University of Thessaloniki in 1998 and his PhD in Veterinary Microbiology in 2017. Prior to joining academia, he served for more than 25 years as a military veterinarian in the Hellenic Armed Forces (Colonel), holding senior positions in microbiology laboratories, quality management, and public health.

His research focuses on veterinary microbiology, virology, infectious diseases, antimicrobial resistance, molecular diagnostics, and next-generation sequencing. He has received advanced training at the Centre for Virus Research, University of Glasgow, and Ghent University, and has authored numerous peer-reviewed scientific publications. Dr. Papageorgiou is actively involved in teaching undergraduate and postgraduate veterinary students and participates in international collaborations in animal health and One Health research.
